

Some Important Reasons Why You Should Step Up To A SnugPro Cap

- Improved fuel economy —up to 10% over a non-covered bed
- Multiple cap configurations to meet your particular operational needs
- Premium quality hardware and finish ensure a long, trouble-free service life
- Advanced Structural Composite construction superior to steel toppers
- Custom fit and color matched to your specific truck, make and model
- Professional look enhances your company's brand image

A SNUGPRO is adaptable to a variety of uses:

- **Utilities:** cable, phone, electrical, gas and water
- **Construction:** electrical, plumbing, framing and carpentry, HVAC
- **Pest Control and Fumigation**
- **Residential Home Repair and Remodeling**
- **Field Service and Installation:** electronics, appliances, satellite dish
- **Landscaping**

Ourextra care and attention to detail, extreme durability and well thought out designs, make SNUGTOP the premier designer and manufacturer of the leading brand of tops in the industry. With over fifty-year heritage of manufacturing excellence, the bar has been set high at SNUGTOP and the entire team is

proud of their craftsmanship. Add to this our state-of-the-art manufacturing technology, which ranges from 3D-CAD/CAM mold designs, computer-controlled equipment and an automated paint line, and you'll see why SNUGTOP is second to none in design, innovation and quality.

At SNUGTOP we are dedicated to supplying the highest quality products and "above and beyond" services to our customers, and to being the best in the world through integrity, innovation and continuous improvement.

A 58+ Year History Of Excellence

Snugtop has been an industry leader in design, technology and quality since 1959. Nobody builds a better truck cap than Snugtop!

Over 58 years of industry leadership and proudly manufactured in U.S.A.

XTRA Vision Model Shown with all-glass door

Snugtop Means Business

Fitting a truck with a SnugPro maximizes working efficiency while enhancing company image. Here's a guide to build a SnugPro to best suit your needs.

THE PERFECT FIT

www.snugtopcommercial.com

1 Choose A Cap Style

Cab-Hi

SNUGTOP's classic model. The cap's roofline extends from the cab and offers gently curved lines to enhance the look and aerodynamics of the truck.

Hi-Liner

Designed with extra height for those who want added cargo space. The roofline is higher than the cab, and a larger rear door offers easier access to the bed.

XTRA Vision

Contemporary styling with an enlarged all-glass tailgate and automotive-style rotary latch locking system are primary features of this impressive truck cap.

Chevrolet Dodge/Ram Ford Nissan GMC Toyota

Model _____ Year _____

2 Choose A Front Window Option

Solid front (no window)

Fixed front window

Sliding front window

Fold down fixed front window

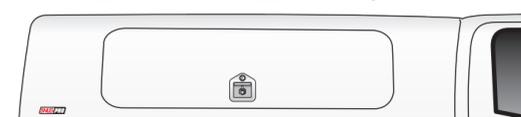

Fold down sliding front window

3 Choose A Side Option

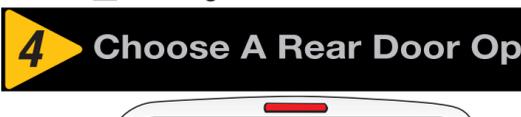

Solid side, no window
